Topic: Matcha

### I. Description Paragraph

If you are bored of drinking other kinds of beverage, you must try this matcha drinks. With meticulous making processes, you will be hooked by its intense aroma and glamorous flavor. Sweets and drinks from matcha can always keep me excited and yearn for more. In cafés, it is a standard to include a matcha latte on the menu because of the high demands. It is hard to express all of the feelings I was experiencing when I had had my first matcha latte topped with whipped cream and colorful sprinkles at Starbucks. The vibrant green hue that it gave off, is also my favorite color. It was a heaven on earth for me. I used to think that I could drink this every single day! It was so sweet, creamy, and wholesome, and it was an amazing pleasure to feel its taste melting in my mouth. After years past, I still love matcha as much as I did when I was younger. But nowadays, I am getting more health conscious when I order a drink at cafés, so I ask for less sugar or no sweet at all. Because of this, it is still my favorite drink and I think it is the best tea that can blend well with anything.
